RE: Status Report: FY11 Joint Work Plan		06/10/2011 10:15 AM	

Document Body

Having now looked this over, I think it would be beneficial to have a short call to ensure we are on the same page. Much of this simply needs to be updated given what has happened over the last 6 months (e.g., CAFOs, pesticide permit).

Subject: Status Report: FY11 Joint Work Plan

Hi,

It's time once again to check in on the status of the FY11 Joint Work Plan activities. Please review the attachment below and provide your feedback to me by June 14 regarding the priorities and activities you are currently engaged. If you feel a need to discuss the work plan collectively I'll schedule a conference call on or prior to June 14. Otherwise, I'll consolidate everyone's response, follow-up to identify any issues and forward an updated Joint Work Plan status report. Thanks

(See attached file: R5-IEPA FY11 Joint Work Plan - 3qtr status report 060811.xlsx)
